We understand you are the case officer for 21/00064/FUL on which we submitted a comment last week.

The comment system does not permit attachments, so we are submitting separately a photo of a major construction that appeared this February, without any record referring to it in either the planning applications database, or that of building regulations.

In case your site visit took place before this appeared, we believe it should be taken into consideration when assessing 21/00064/FUL and preparing your report.

Please confirm this email reached you, as email does not always get through, especially on first attempt to a new addressee.

Thank you.
