Comment Reasons:

- Other - give details

Comment: I am only objecting to the new large window on the front of the house above the front door. The diamond which is one of the only character features of these houses has been removed.

They could put a smaller window to the side of the diamond. They can also put a window on the side of the house to let light in instead on the front. The new window on the front of the house does change the character of the house.
