Hi Martina/Lucy,

I'm hoping this email to Planning finds you ok, as I've tried to call, and go through via Customer Services, who advised I need to respond via email.

Some months back you assisted me with my planning application, which has since been passed.

I have been advised by my building inspector to notify you of a 'non-material amendment' to my original proposal.

The rear roof proposal - as originally proposed a full pitched roof, requires at least a 15 degree pitch, but only 11 degrees has been achieved following block being laid to the height of where the rafters attach.

Please find attached the new elevations & layout.

My Building Inspector informed me that there should be no additional charges for this, but please review and confirm?

Please confirm if the new elevations drawn are sufficient to progress the change, or if any further information is required.

I look forward to hearing from you.

Kind Regards,

Stephen Bell
