## Existing and Proposed Uses

Please describe the current use: \* (Max 500 characters)

Entry and exit to our property. The front door made from timber, has deteriorated and urgently needs replaced. It allows moisture and cold air into the house and is beginning to rot.

Please describe the proposed use: \* (Max 500 characters)

This application does not propose any change to the "use", as a replacement door will still serve as the main means of entry and exit to our property. We are proposing a change in the material used from timber to composite as better means of insulation and that will stand better in rural conditions over a longer period of time, while retaining the aesthetic of the property.

- Development Appraisal.
- Environmental Impact Statement.
- Conservation Survey/Statement/Plan.
- Other.

As you have selected "other" from the information in support of your application list please provide further details. \* (Max 500 characters)

I have attached supporting documentation showing the irreversible damage to the front door, caused by wear and tear of living in an exposed, rural environment. I have attached details of the proposed new door including frame, hardware and measurements. While I am proposing a composite door, the design and hardware honours the aesthetic of country living in "cottage" style. It should also be noted that our neighbours have UPVC.
