# 4. Site Area What is the measurement of the site area? (numeric characters only). Unit Sq. metres

### 5. Description of the Proposal

Please describe details of the proposed development or works including any change of use.

If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.

The development is the creation of 6 ponds located on the same farm holding, in order to create suitable habitat for Greater Crested Newts. The project is part of wider scheme in conjunction with Durham Wildlife Trust and Natural England. The scheme is to compensate other sites within County Durham where developments are taking place where Greater Crested Newt habitats have been destroyed in order for the development to take place. The 6 ponds are to be excavated on semi improved pasture, all 6 of the ponds will be fenced off and will be 150m2, they will have a minimum depth of 25cm with a gently sloped gradient down to a maximum depth of 1m. It is proposed that 4 ponds will be in one location (as per the location plan) and the other 2 in a different location (see plans). The scheme is designed to conserve and enhance both habitat and population of the Greater Crested Newt and the 2 respective sites have been chosen subject to a survey from Durham Wildlife Trust for their respective merits. The wider farm holding is a site which has been and is continued to be managed with conservation at the forefront and this scheme contributes greatly.
