Subject: 29 Main St Lyddington

Dear Andrew,

Further to the specific instructions as specified within the listed building application / consent and as instructed by the agent, Kirk Estates we write to confirm that as per the methodology confirmation relating to the re-pointing required, we formally advise that for the work we used only **hand** tools as follows:

a small pointing trowel and a finger trowel to make good the areas needing attention.

As per Mr Wright's direction and instructions in person on site we kept the re-pointing to an absolute minimum and as supported by the images Kirk have submitted.

kind regards

Simon Oakes
