To Whom It may concern

12th March 2021

With reference to our planning application 09537293v1 for an extension to our factory unit which will be used to store extra stock glass.

Our need for this extension has now become urgent due to two main factors.

Firstly, the knock-on effect of Brexit has unfortunately increased lead times on delivery leaving us short on stock.

Secondly two main glass suppliers, St Gobain and Guardian have chosen this year to do a major refit to their production facility, which will cause glass shortages.

By building our extension this will allow us to have continuous production through our factory,

Allowing us to keep staffing levels intact without relying on Furlough and redundancies.

It will be more than likely be able to increase staff levels and for us to increase our twilight shift.

We have during the last six months of last year been able to increase staff levels by 10% bucking the

Current trend.

I know that it is difficult during this current time, but would welcome a visit at any time to see our Production facility.

Kind Regards

Alan Hellyer

Director
