Quote Specification and Costing:

Our fully NPTC qualified team will attend site to carry out works to clear down to ground level leaving all trees the area of land adjacent to the main site compound. The team will use a mini digger to scrape the ground cover ivy and all fly tipped debris through the area and into a skip on site. The team will also ensure all trees are raised to 2.4 metres from ground level. All arisings will be removed from site via a skip however if the skip cannot be dropped due to the tight access we will have this dropped at one of our yards and waste will be removed via a van. Please note that this quotation does not include the removal of any asbestos that may be in the area. This will need to be remove by a specialist contractor separately

Site Visit Photographs:

Photographs taken on my site visit are also attached below.
