Subject: Extention inquiry

Attached please find my "Do I need planning or building regulation approval?" form. I met with Ms. Lehan 2 weeks ago on June 9, and I think I understand the limits of an extension which I am permitted to build with approved development to be 70 cubic metres. The shape of my proposed extension is a little irregular in shape and I have calculated it to be approximately 60 cubic metres. I have erred to the smaller size because of the irregular shape and the difficulty of calculating the exact volume. I have calculated the volume as follows:

The rectangular box portion being	2M x 6.0M x 2.4M high =	30.24 cubic metres
The roof portion of that box being	2M x 6.3M x 1M high X 1/2 =	6.3 cubic metres
The roof increase over the old roof being	1.5M x 6.3M x 1M high x 1/2 =	4.725 cubic metres
The small roof increase triangle being	1.5M x 6.3M x .6M high x 1/2 =	2.835 cubic metres
The 1/2 metre rectangular box portion being	.5M x 5M x 2.4M =	6.0 cubic metres
The 1/2 metre roof portion being	.5M x 5M x 1.6M high x 1/2 =	2.0 cubic metres
I calculate the total volume of the proposed extension to be a total of:		52.1 cubic metres

Also please find attached the NCDC map of the location of White House Cottage.

I would like to build this in conjunction with my existing application number 1480/2008. Thank you for your consideration.

Sincerely,

Bruce Fielding
