To whom it may concern

I have been asked by Mr Fielding to write to you to confirm works carried out by my company in 2008 and 2009. In 2008 we were instructed to install a septic tank and carried out these works as detailed in my invoice dated June 2008 together with further ground works in 2009 and 2010.

My company was instructed to carry out further works for a curtain drain and downspouts drain and piping to the drainage ditch. We also carried out works in 2010 to create a proper driveway with chippings.

When I returned to site in 2009 and 2010 I saw that solar panels and small wind turbine had been sited in the garden area and were connected to the building. In 2010 I was aware that Mr Fielding was living in the property having carried out the extension, the replacement roof, installed windows and domestic requirements of providing kitchen, bathroom and heating system.

Yours sincerely

Michael Vanstone
