## 5. Description of the Proposal

Please describe details of the proposed development or works including any change of use.

If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.

Has the work or change of use already started?  Yes  No

## 6. Existing Use

Please describe the current use of the site

The development areas is located within the grounds of Marple Hall School and involves works to two areas; Firstly, the redevelopment of a dis-used macadam court area. Secondly, the refurbishment of an existing synthetic turf pitch located to the north of the main school buildings.

Is the site currently vacant?  Yes  No

**Does the proposal involve any of the following? If Yes, you will need to submit an appropriate contamination assessment with your application.**

Land which is known to be contaminated  Yes  No

Land where contamination is suspected for all or part of the site  Yes  No

A proposed use that would be particularly vulnerable to the presence of contamination  Yes  No

## 7. Materials

Does the proposed development require any materials to be used externally?  Yes  No

**Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material):**

Other MUGA court surface

Description of existing materials and finishes (optional):

Grey/black tarmacadam in disrepair

Description of proposed materials and finishes:

The replacement surface to the MUGA court area will be a sand dressed synthetic turf, colour green, including coloured line markings to delineate the sports courts.

Boundary treatments (e.g. fences, walls)

Description of existing materials and finishes (optional):

Description of proposed materials and finishes:

The installed appearance of the new ball-stop fencing to the MUGA court will be steel open mesh fencing galvanized and polyester powder coated blue. The proposed blue colour finish will match the fencing that is already installed onsite the adjacent sports courts.

In terms of the visual impact of the new fencing, the elevation will consist of a weld mesh design comprising see-through mesh (i.e. no 'solid' boards or panels). This type is commonly installed around artificial sports pitches and permits light and views throughout, reducing the visual impact of the fencing. Given the location of this facility, and it being immediately adjacent to another facility with fencing installed to a higher level in overall landscape terms, the ball stop fencing proposed would not give rise to unacceptable visual impacts to warrant refusal of the application.

Lighting

Description of existing materials and finishes (optional):

## 7. Materials

Description of proposed materials and finishes:	<p>The installed appearance of the new artificial lighting system to the MUGA court will include four (4 Nr) slimline 10m high sectional hinged steel masts finished galvanised (Z275) self-coloured, mounted with fourteen (8 no.) LED luminaires and fittings finished raw aluminium.</p> <p>A galvanised only finish of the columns has been selected as the preferred solution in terms of being more discreet against the background of the (often) grey UK skies.</p> <p>It is accepted that whilst the new masts to the MUGA court would result in features which are prominent within the site itself, they are vital to provide artificial lighting for the planned use of the MUGA court after dusk. It should be noted that the proposed masts being installed to the MUGA court would be slimline masts of a lower height than those installed to the nearby synthetic pitch. They would less obtrusive than these existing masts.</p>
---	--

Other Access pathways	
Description of existing materials and finishes (optional):	
Description of proposed materials and finishes:	New access pathways to the MUGA would be finished in grey/black macadam.

Other Synthetic turf to main pitch	
Description of existing materials and finishes (optional):	
Description of proposed materials and finishes:	The replacement surface to the synthetic pitch will be a 3G synthetic turf, coloured grass green & including coloured line markings. 3G synthetic turf is designed to look similar to a well maintained natural turf surface.
