Argyll Environmental's professional opinion describes the level of risk associated with the information disclosed in the associated Enviroscreen data, as the following:

Property Assessment

PASSED

Property Value

Unlikely to have an adverse effect on the value of the property.

Contaminated Land

The property is unlikely to be designated "contaminated land" within the meaning of Part 2A of the Environmental Protection Act 1990.

Environmental Factors for consideration

In this case no environmental factors have been identified

Based on valuation guidance from the RICS Red Book this report complies with UK GN1.1 - Appendix 2.2(E) Contamination and hazardous substances and valuation guidance from the RICS Red Book - Appendix 2.2(F) Environmental Matters.

Additional Information

In completing this report Argyll Environmental has undertaken a review of the Enviroscreen data made available to it. No site inspection, further enquiries or investigation of surface or ground conditions has been carried out by Argyll Environmental. No information as to the age, value and type of property has been made available.

Surveyors are reminded to refer to the RICS guidance note 'Contamination, the environment and sustainability - Implications for chartered surveyors and their clients', published April 2010, and consider using the property observation checklists developed by the RICS for identifying apparent potential for contamination and recording observations made during the normal course of inspection. The checklists are contained at Appendices A-C of the above guidance note. Completion of these checklists does not constitute an environmental assessment for the purposes of Professional Indemnity Insurance where many surveyors are unlikely to have appropriate indemnity cover.

The information in this Enviroscreen® Certificate is derived from a number of statutory and non-statutory sources (refer to the user guide). Whilst every effort is made to ensure accuracy, Landmark cannot guarantee the accuracy or completeness of such information or data, nor to identify all the factors that may be relevant. If you are a private individual using this Certificate Landmark recommend that you discuss its contents in full with your professional advisor. It is essential to read this Certificate in conjunction with the User Guide and your attention is drawn to the scope of the Certificate section within the User Guide.

Commercial Premises Environmental Insurance

Landmark information Group provides a link to Arlington Insurance Services Limited which is able to offer environmental insurance underwritten by ACE Insurance Group Limited for West Wyke Farm, Wyke Lane, Ash, ALDERSHOT, Surrey, GU12 6EE. The insurance is subject to an Enviroscreen certificate report having been commissioned and a quote obtained from Arlington Insurance Services Limited.

Key policy Benefits:

- n Coverage for sudden and gradual pollution
- n Coverage for on-site and off-site first party cleanup
- n Automatic coverage for biodiversity damage
- n Damage to third party property, including diminution in value
- n Policy periods up to 5 years coverage
- n Limit of indemnity up to £5m
- n Self Insured Retentions from £2,500 per loss
- n Proactive claims support to minimise losses and their financial and reputational impacts on the business
- n Legal Defence Expenses

This statement does not contain the full terms and conditions of the coverage provided, which can be found in the policy document. The Environmental Impairment Liability (EIL) Policy is a claims-made policy offering a range of cover for gradual, sudden and accidental pollution resulting from the ownership, control and/or operation of premises.
