

UNIVERSAL < 1/1 > HEAT DUMP - HDU

Width 540mm Casing Polyester coated steel
Depth 270mm Supply voltage 24V
50/60Hz
Height 385mm Max. ambient temp. 35 °C
Dry weight 12kg Run load 4.0A

TECHNICAL INFORMATION

Size compatibility Up to 34cc Fan motor 16W
Connections 15mm diameter Fan blade Ø250mm plastic
Noise output 30 decibels at 2m Heat exchanger Heat dump coil
XXL Rads

FEATURES

Supply cable connections at both ends of the unit.
Non-screw terminals.
Mounting bracket supplied.

PRODUCT DESCRIPTION

Our Universal Heat Dumps are manufactured for use alongside water cooled units and installations in outdoor environments. Used in conjunction with remote water cooled coolers. Designed for ease of installation and maintenance. Removable heat exchanger allows for the ease of mounting and cleaning.

CONFIGURATION OPTIONS

- Standard

PRODUCT FEATURES

- Multi-purpose three pass heat dump
- Designed for ease of installation & maintenance
- Suitable for use with any style of water-cooled remote cooler & a number of various other applications
