RE: RESERVED MATTERS: Erection of two dwellings at Land Between Bimbos Ark And 15 Station Road Walpole Cross Keys Norfolk

Dear Sir/Madam

The site is within the Internal Drainage District (IDD) of the King's Lynn Internal Drainage Board (IDB) and therefore the Board's Byelaws apply. A copy of the Board's Byelaws can be accessed on our website (https://www.wlma.org.uk/uploads/KLIDB_Byelaws.pdf), along with maps of the IDD (https://www.wlma.org.uk/uploads/128-KLIDB_index.pdf). These maps also show which watercourses have been designated as 'Adopted Watercourses' by the Board. The adoption of a watercourse is an acknowledgement by the Board that the watercourse is of arterial importance to the IDD and as such will normally receive maintenance from the IDB.

In order to avoid conflict between the planning process and the Board's regulatory regime and consenting process please be aware of the following:

- I note that the applicant has not identified or provided a drainage strategy for the site within their application. If a surface water discharge is proposed to a watercourse, then the proposed development will require land drainage consent in line with the Board's byelaws (specifically byelaw 3). Any consent granted will likely be conditional, pending the payment of a Surface Water Development Contribution fee, calculated in line with the Board's charging policy (https://www.wlma.org.uk/uploads/WMA_Table_of_Charges_and_Fees.pdf).
- I note that the applicant has not indicated how treated foul water from their site will be disposed of. If the applicant wishes to discharge foul water to a watercourse this proposal will require land drainage consent in line with the Board's byelaws (specifically byelaw 3).
- I note the presence of a watercourse which has not been adopted by the Board (a riparian watercourse) adjacent to the site boundary. Whilst not currently proposed, should the applicant's proposals change to include works to alter the riparian watercourse, consent will be required under the Land Drainage Act 1991 (and byelaw 4).

Mr B Long (Chairman) Mr T Matkin (Vice-Chairman)

Mr P J Camamile (Chief Executive)

Cert No. GB11990

Cert No. GB11991

Whilst the consenting process as set out under the Land Drainage Act 1991 and the aforementioned Byelaws are separate from planning, the ability to implement a planning permission may be dependent on the granting of these consents. As such I strongly recommend that the required consent is sought prior to determination of the planning application.

Kind Regards,

Ellie
