

WASTE AND RECYCLING STRATEGY

Document Ref: A004

Application Site: 853 Dunstable Road, Luton, LU4 0HW

Applicant: Mr. Augustin Arul

Agent: Boscobelle Brockton

Statement regarding D & S Food and Wine Waste and Recycling Strategy:

Store managers and staff are trained to separate all waste cardboard and plastic from the general waste stream. These materials are then stored separately for recycling. These recyclable materials are then deposited in a collection receptacle provided by Luton Borough Council and collecting as per commercial agreement.

Any residual waste is then stored in an appropriate container where it is collected on a regular basis by our waste contractor (Luton Borough Council) . This material is disposed on in landfill.

Other waste streams such as Animal By Products are also separated from the general waste stream and collected by an approved contractor for appropriate disposal.
