

Bring the outside in with VELFAC doors

If you want to make more of your outside space, enhance a fabulous view, or simply maximise natural light, VELFAC doors provide beautiful, secure and flexible solutions.

Multi-point locking brings peace of mind, and ensures the door closes tightly, eliminating draughts. Door construction also delivers excellent low energy performance.

VELFAC doors are the ideal complement to your VELFAC windows. Finished to match frame colours, inside and out, a VELFAC door features the same uniform sightlines that make VELFAC windows so distinctive, allowing a seamless transition from door to window.

Install VELFAC doors on their own, or with VELFAC window units to create stunning entrance features to add character and style to your house.

> Casement Doors

The casement door may be used as an exit to a garden, balcony or terrace, for example from a living room or bedroom. The door can be divided by glazing bars or infill panels chosen to complement the overall building design.

> Sliding Doors

The sliding door takes up very little room and is specially designed for narrow terraces and balconies to optimise the space available. VELFAC sliding doors are available with standard (72mm) or low (25mm) threshold.

> Bi-fold Doors

If you want to make more of your outside space, enhance a fabulous view, or simply maximise natural light, the VELFAC bi-fold door provides a beautiful and flexible solution.

Welcome home

A front door is your home's face to the outside world. It gives it personality and a distinctive touch. A VELFAC door combines contemporary style with all the high performance features you would expect of a door built to VELFAC standards.

VELFAC access doors are available in two types:

➤ **Flush doors** – constructed from wood and aluminium, flush doors are available in a number of external designs and can incorporate a range of glass apertures. External profiling can also be specified for added detail and interest.

➤ **Glazed doors** – also featuring a wood and aluminium construction, glazed doors provide maximum daylight. They are available in a wide range of panel configurations – and glazing bar options – resulting in an impressive variety of glazing designs.

Details that make the difference

Mix and match hundreds of frame colours and surface finishes.

With VELFAC, you can choose the ideal colour for your new windows and you can specify different colours for internal and external frames.

The external frames can be finished in any RAL colour, granite or metallic. VELFAC Standard RAL colours come at no additional costs.

VELFAC standard colours*

Key features

- > Wide range of standard colours
- > Granite or Metallic available as special finish options

*Overview of RAL standard colours:
All colours are available in gloss and matt finish.
Wood = standard colour available for internal wood also

Accessories

Customise your windows and doors with VELFAC accessories. You can choose different handles type and add click vents or fully concealed electric openers to let in fresh air.

> Handles:

Standard espagnolette

Espagnolette with child-lock

Espagnolette with lock

Espagnolette with cylinder lock

All espagnolettes can be supplied with a lock and key for extra security or with a child-lock button.

> Ventilation:

Click vent

Standard restrictor

Lockable restrictor

WindowMaster motor

The fully concealed, anodized click vent helps improve ventilation and the indoor climate.

Restrictors limit opening of the window to about 50cm. They need to be released before the window can be opened completely.

The WindowMaster motor can be computer controlled and used in natural ventilated projects or where windows are inaccessible.

> Others:

VELFAC maxi-handle

Acoustic trickle vent

The warm and non-slip surface of the maxi-handle makes opening the window easier for those with an infirm grip.

The acoustic trickle vent achieves a sound reduction value without compromising internal ventilation.
