Where a listed building has been identified (above) the applicant should familiarise themselves with any information the LPA may hold, and seek the advice\* of the local planning authority before submitting a planning application or listed building consent (LBC) application.

Where a listed building has been identified outside the boundaries to the site, the impact of the proposal on the setting of the listed building should be considered.

Where works will affect a Grade I or II\* listed building or its setting the applicant should visit the Historic England website to establish when to seek pre-application advice from them:

[www.historicengland.org.uk/services-skills/our-planning-services/](http://www.historicengland.org.uk/services-skills/our-planning-services/)

\*Please note that some Local Planning Authorities charge for pre-application advice and information can be found on the relevant planning websites.

## 3. Conservation Area

The site is: Please see below

### *Description of the Conservation Area*

The site is not within a Conservation Area.

Where a Conservation Area has been identified (above) the applicant should familiarise themselves with any Conservation Area Appraisal or other information the LPA may hold\*, in order to consider any impact on the Conservation Area or its setting, prior to submitting the application. Historic England should be consulted on proposals that affect the character or appearance of a Conservation Area and which involves the erection of a new building or the extension to an existing building where the area of land in respect of which the application is made is more than 1000 square metres. Please see: [www.historicengland.org.uk/services-skills/our-planning-services/](http://www.historicengland.org.uk/services-skills/our-planning-services/)

\*Information can be found on the relevant planning websites

\*Information can be found on the relevant planning websites

#### **6. Archaeological Notification Area (ANA)**

The site is: Inside an ANA

### ***Description of and reason for the ANA***

The site is located within an ANA defining the West Blatchington Roman villa complex, as well as Bronze Age and Iron Age occupation, kilns and burials.

**For further information about the ANA please contact the County Archaeology Team: [County.Archaeology@eastsussex.gov.uk](mailto:County.Archaeology@eastsussex.gov.uk).**

### **7. Locally Listed Heritage Asset**

(including buildings, structures, parks and gardens)

**Please choose the most appropriate option:** Please see below

#### ***Description of locally listed heritage asset***

There are no locally listed heritage assets within 250m of the site.

**Not all Local Planning Authorities hold a Local List of Heritage Assets. Where a Locally Listed Heritage Asset has been identified (above) the applicant should familiarise themselves with any information the Local Planning Authority may hold\*, in order to consider any impact on the Heritage Asset or its setting, prior to submitting the application.**

\*Information can be found on the relevant planning websites

### **8. Other Non-Designated Heritage Asset**

(including buildings, structures, parks and gardens identified from the HER and/or associated sources such as historic mapping or documentary records)

**Please choose the most appropriate option:** A Non-Designated Heritage Asset has been identified within 100m from the site

#### ***Description of non-designated heritage assets***

There are no recorded non-designated heritage assets within the site boundary. There has been no recorded below ground archaeological investigation of this site. [1]

Historic mapping for the site records the area as fields from the mid-19<sup>th</sup> century through until the early/mid-20<sup>th</sup> century. Whilst this building is not currently recorded on the Historic Environment Record, above and below ground remains of this building may be considered to be a non-designated heritage asset. [2]

An archaeological watching brief was undertaken at Midhurst Walk, approximately 120m north east of the site; No archaeological finds or features were recorded due to previous truncation of the site. [3]

To the east of the site lies a Late Bronze Age to Roman occupation site with the nearest feature being approximately 40m east of the site.: Two sites of Bronze Age activity lie approximately 200m south east of the site and are evidenced by an "oval cooking place" in natural clay with pottery, charcoal and animal bones overlaid by a thick layer of pot boilers. Two bronze palstaves and a broken winged axe were also found along with a short ditch or gully containing LBA pottery. Stray finds of the period included two barbed and tanged flint arrowheads and scrapers.

The Iron Age and Roman concentration is to the east. Four rectangular pits contained Iron Age pottery and daub were found, along with ditches dating to the 1<sup>st</sup> century BC-AD, and a late 1<sup>st</sup> century inurned cremation. Several pits, possibly storage pits, were associated with a possible working floor.

A basilican Roman villa was dated to the 3<sup>rd</sup>-4<sup>th</sup> centuries with series of 11 corn drying ovens and associated ditches (probable road or field boundaries); one was overlaid by 3<sup>rd</sup>-4<sup>th</sup> century occupation floors. A Romano British hut floor or workshop, containing iron tools, 2<sup>nd</sup>, 3<sup>rd</sup> and 4<sup>th</sup> century pottery was recovered, along with a burial site comprised three groups of cremations. ## **Further information**

The **Historic Environment Record Consultation report (Appendix 1)** provides information about designated and non-designated heritage assets on and adjacent to a proposed development site. This information is taken from information recorded in the East Sussex Historic Environment Record (ESHER), including historic maps.

The **Historic Environment Record Consultation report (Appendix 1)** will be completed by the East Sussex Historic Environment Record Team. This report identifies heritage assets recorded in ESHER that are located within the development site or within 250m of the development site.\* This information should inform proposals and the production of a **Heritage Statement** required by the Local Planning Authority in accordance with the National Planning Policy Framework.

The **National Planning Policy Framework** (Department for Communities and Local Government, July 2018) **Section 189** states that: *In determining applications, local planning authorities should require an applicant to describe the significance of any heritage assets affected, including any contribution made by their setting. The level of detail should be proportionate to the assets' importance and no more than is sufficient to understand the potential impact of the proposal on their significance. As a minimum the relevant historic environment record should have been consulted and the heritage assets assessed using appropriate expertise where necessary. Where a site on which development is proposed includes or has the potential to include heritage assets with archaeological interest, local planning authorities should require developers to submit an appropriate desk-based assessment and, where necessary, a field evaluation.*

Please use the information provided in the **Historic Environment Record Consultation report (Appendix 1)** to aid the completion of the **Heritage Statement**. Both of these documents will need to be completed and submitted to the Local Planning Authority with the planning application.

Description of the term **Heritage Asset**: A building, monument, site, place, area or landscape identified as having a degree of significance meriting consideration in planning decisions, because of its heritage interest. Heritage Asset includes designated heritage assets and assets identified by the local planning authority (including local listing).

*\*The information in the East Sussex County Council Historic Environment Record although verified as far as possible, is not definitive and ESHER cannot be held responsible for any inaccuracies in the data. The 100m and 250m distances indicated are given as a guide in order to identify heritage assets that may be affected by the proposal. The Local Planning Authority may identify further designated and/or non-designated heritage assets that require further research to determine the impact of the proposed development on these assets and/or their setting*
