Volume calculator (pitched roof, two end gables)

Enter the measurements in the fields below and then click the "Calculate" button. Results are shown in the "Total Volume" field.
The volume calculator provides the total volume of the element that is illustrated in the image and defined by the measurements shown.

Note on taking measurements

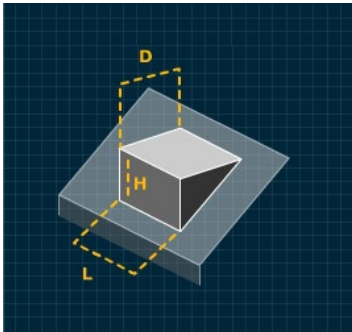

All dimensions must be based on external measurements of the building or structure involved and not internal measurements.

Disclaimer

These calculators are based on standard building shapes.

They should be used with care if the building you are measuring involves a combination of these forms or differs in a significant way from those in the calculator.

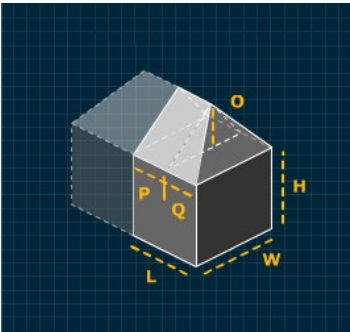

If in doubt seek advice from a qualified person or your local planning authority.

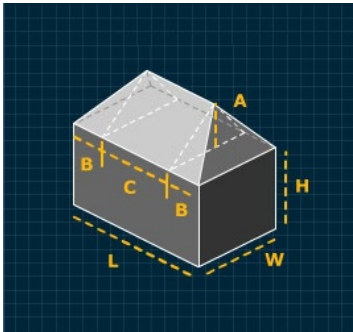

Dormer Window, Flat Roof

Lean-to, Single Pitch Roof

Pitched Roof, One End Hip

Pitched Roof, Two End Hips
