

Dear Ann

Please find attached 3 documents

1) Window and door cross-sections MH008

2) Solar panel installation cross-sections MH007

3) Updated Design and Access statement/Proposed works. Now includes Solar Cell Proposal, New Drive layout, and Ground Source Heat Pump Matrix installation, the last two I do not think are needed but they demonstrate the thinking behind the overall plan.

I am hoping that all the information you require is there for you. I spoke to Steve Beckett and he is expecting to work with me and modify my ideas as we proceed, as we do not as yet really know the extent of the work involved. I could hear a deathwatch beetle last night so that is a little concerning.

My number should you need it is

07810550213

Regards

Ian l'Anson

Subject: Invalid Planning Application 2021/0804 & 2021/0805

Please see attached document.

Please could you also confirm that the proposal description covers all changes.
