Dear Sir,

App REF 19/02616 (CUT) BRAKE HILL
" " REF 19/05000/HYB FORT HALSTEAD

We wish to object to the above planning
apps for development.

The number of dwellings proposed would
seriously affect the current travel, living accommodation
and privacy of the current residents. The large
increase in traffic, on the current main roads and
side roads will affect highway safety for all
children and elderly residents due to narrow paths
narrow roads and the lack of parking.

The layout and density would badly effect the
local residents due to heavy use by Contract Vehicles,
the noise, smells and disturbance and the time
taken to build this vast operation.

The excess use by vehicles, would seriously
affect the safety of all residents. The current nature
conservation of ancient trees a loss of Greenbelt would
leave the area into an UGLY place no longer green and
Pleasant. Yours faithfully
