Subject: Fort halstead - planning application

So yet again for the avoidance of any doubt i strongly object to this development.

I have made many comments on your website over the years and please take them all into account as they are all still relevant and you are wasting my time and yours by making me repeat them time and time again.

This development is shocking and the multiple commercial interests in this are constantly pushing the boundaries for profit at the expense of the surrounding area, villages and residents. All the employment led reasons it was permitted are now gone from the new proposals. It is way more dense than originally anticipated. The area has no dentists, doctors and the school is underperforming. Public transport is also poor.

Star hill is very dangours i use it multiple times a day - do you??????? That access point being open should at all costs be restricted to bikes and buses only. To do anything other than that is completely negligent and the council should be help accountable for the accidents which no doubt willl resut on that road if you do anything else. I will certainly make sure it is highlighted to the press.

To be honest i am wondering what the point of commenting on all these developments really is?

You never seem to take account of local comments - only the developers and quite frankly it is shocking. Totally ashamed of the way the council works on these issues.

Hopefully you can see the strength of feeling on this. I fully endorse knockholts response to the planning application as already submitted.
