## 4. What Are You Applying For?

Based on the type of work proposed and the location and protected status of the trees involved, there are various details and supporting information that will need to be supplied in order for the Local Planning Authority to determine the application.

Are you seeking consent for works to tree(s) subject to a Tree Preservation Order?

Yes  No

Do you know the Tree Preservation Order reference number(s)

Yes  No

Please enter the title or number for each relevant Tree Preservation Order

### For works to trees covered by a TPO

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application MUST be accompanied by the necessary evidence to support your proposals (see guidance notes for further details).

#### 4. What Are You Applying For?

1. Condition of the tree(s) - e.g. it is diseased or you have fears that it might break or fall  Yes  No

2. Alleged damage to property - e.g. subsidence or damage to drains or drives.  Yes  No

Are you wishing to carry out works to tree(s) in a conservation area?  Yes  No

#### Documents and plans (for any tree)

A sketch plan clearly showing the position of trees listed in the question 'Identification of Tree(s) and Description of Works' MUST be provided when applying for works to trees covered by a Tree Preservation Order. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes).

It would also be helpful if you provided details of any advice given on site by an LPA officer.

Are you providing additional information in support of your application (e.g. an additional schedule of work for question 'Identification of Tree(s) and Description of Works')?  Yes  No

#### 5. Identification of Tree(s) and Description of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out.

You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work.

Where trees are protected by a Tree Preservation Order, please number them as shown in the First Schedule to the Tree Preservation Order where this is available. You should use the same numbering on your sketch plan (see help for sketch plan requirements).

Please provide the following information:

- Tree species
- The number used on the sketch plan); and
- A description of the proposed works.

Where trees are protected by a Tree Preservation Order you must also provide:

- Reasons for the work; and where trees are being felled
- Proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

e.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with one standard ash in same position.

T1 Scots Pine:- Reduce main trunk of tree by some 25-30 feet down to a major branch which will be the new re growth point of the tree. Protruding from this major branch is a canopy and the aim is to reduce the canopy by some 1.5-2.0 metres to suitable re growth points on the branch by approved techniques.

The tree in question is a large Scots Pine that is situated in the side garden where the client lives. The client obviously wants to keep the tree but is under the impression that the tree has grown far to tall and large for the plot that it is situated in. Looking at the tree it would appear that the only way to reduce the tree down to a more proportionate size would be to reduce the main trunk of the tree down to the major branch that protrudes from it which would then mean that obviously it would not be as tall and a lot of weight would have been taken out of the top of the tree which would make it more sustainable for the client to manage and also by doing this work there would hopefully be many more years of growth in the desired tree.

#### 6. Tree Ownership

Is the applicant the owner of the tree(s)?  Yes  No

#### 7. Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.  Yes  No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

#### 8. Trees - Declaration

I/we hereby apply for planning permission/consent as described in this form and the accompanying plans/drawings and additional information. I/we confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine opinions of the person(s) giving them.
