19th February 2021

Dear Ms K Mabbs

Ref APP/20/01119

RE: 9 Langstone, High Street, Langstone, Havent, Hampshire, PO9 1RY

Following your letter dated 4th December

We are going to take down the chimney inside the roof to alleviate the weight, down to the frost damaged area of the chimney in the roof

Set aside the bricks to rebuild as per the photos

If we could do this in any other way we would but owing to the extent of the damaged bricks there is no other way

If you would like to visit the property this can be arranged, you would then be able to see the issue I have with the weight and the amount of missing bricks

All works in sand and lime

Please do not hesitate to contact us should you require any further information.

Yours Faithfully

Bryan Williamson
