	Fence		Contour minor
	Hedge		Surface edge
	Foliage		Tree canopy
	Gate		

Notes.

Copyright of this plan is held by A.R.M. Surveys Limited. No responsibility is taken for amendments by others. Do not scale from copies or PDFs.

The origin and orientation of the survey grid is based on national grid co-ordinates via GNSS with active os network OSGB36 (15) centred around station SN1 with the data presented on a plane grid.

This survey was carried out to an agreed specification. Detail and features not included in the original specification will not be shown.

The drawing scale indicates the accuracy of the digital data.

Levels on road kerb strings are taken in the channel.

Trees with a trunk diameter of 0.05m and larger included in the survey and shown with the average canopy spread.

Hedge widths are indicative, text notes show widths.

Stock boundary fences may not be shown where they occur adjacent to other boundary features.

Areas of the site obscured by overgrowth or spoil may have detail omitted from the survey.
