Dear Sir/Madam

Please accept this letter as confirmation that Forestry England are fully supportive of the planning application to host a temporary artworks trail on the Forest of Dean Sculpture Trail at Beechenhurst.

The proposed artworks for 'Forest to Forest' are in keeping with Forestry England's Contemporary Arts Strategy, which aims to inspire action about the future of our environment. Forestry England are very happy to provide the opportunity for artists to exhibit high quality artworks in the nation's forests; it ensures a wide diversity of people can connect with the forests and experience arts in a distinctive setting.

Yours sincerely,

Judith Lack  
Recreation Operations Manager  
West Forest District

Connecting everyone  
with the nation's forests
