

PARKING SPACE SURVEY

Roadside parking spaces available on Castle Hill
Along frontage of Number 1 Castle Hill through to Number 3 Castle Hill,
Kenilworth

There are 7 CAR PARKING spaces available along the length of this section of road parking on Castle Hill. The spaces are controlled mainly by resident parking permits. There is however a maximum duration of 2 hours availability for general public parking.

The findings of the survey taken in the course of a 2 month period from 19th July 2018 to 19th September 2018 are at Appendix 1. Pictorial evidence Appendixes 2 to 8 contains 54 pictures which are date and time stamped thus authenticating the same.

The average number of parking spaces found to be available during the survey period was 4.

As can be seen from the schedule there is undisputable ample availability for additional on-road permit parking in this section of Castle Hill.
