Rev.	Description	Date Issued

The original PDF of a printed copy of this drawing might contain information in colour. Check PDF for reference. Do not scale from printed copies unless print settings can be verified. Refer to scale bars, dimension lines, height markers etc. All existing site, tree, building and boundary information is based on third party survey data and Erbar Mattes Limited cannot be held responsible for its accuracy. Drawings only show the general position, not exact line of site boundaries. The Contractor must verify existing and target dimensions prior to ordering, fabrication and construction, and report errors without delay to obtain further instructions. Any building services, fixings, sub-structures, water- and vapour proofing layers are Contractor Design items and shown indicatively only. Any Contractor-designed and -proposed items visible in the finished works require approval by the Architect prior to ordering, fabrication and construction to check whether they are well integrated into the overall design.

This drawing must be read in conjunction with all other relevant design information (Contractor Design, Architects' and other consultants' drawings, specification, surveys, reports etc.). "For Construction" status is subject to approval of any Contractor-designed or -proposed items forming part of the works. All construction work to comply with current Building Regulations, relevant (British) Standards and Best Practice requirements.
