Hi Pat,

I have had a look at this one. There is sufficient information provided to support the application. We do not need dimensions as the structure is outside of the time limit for enforcement and it can be granted.

Kind Regards,

Andy.

Good Morning both

I hope you are well.

Could you have a look at the above application in IDOX please and let me know if there is enough information there for the CLUD to be made valid ? There is nothing other than the Estate Agents stuff which has any measurements on for the conservatory but is it necessary for us to know how high etc it is in order to determine a CLUD?

Thank you

Pat
