Hayley,

I have checked my drawings against shown measurements all corresponds correctly in 1:100@A3 scale i.e. 5m deep extension with max apex height as 4m and eave as 3m and this what is shown in the application form.

I am sure why you are coming with discrepancy.

Regards,

Farhan.

Hi Farhan,

Thank you for your email. These are the plans we have for the application, however when measuring the proposed floor plan and elevations at scale 1:100 some of the measurements do not correspond with what is stated on the plan/form. Can you confirm if we should use the measurements stated on the form please?

Many thanks,

Hayley
