HOLLAND ON SEA CLACTON ON SEA
To: <[REDACTED]>

We wish to object to the above planning application on the grounds of our right to privacy. The hip to gable roof and a juliet balcony will impact on the privacy of our rear back garden and the occupants being able to see into our kitchen. We purchased this house especially for the garden as we spend an enormous amount of time in our garden. All the trees have been removed from this property and already feel more exposed to observation and if this planning gets approved we would be overlooked 100% of our garden. The impact would be devastating as it would stop us from enjoying a proper family life as we would feel like we were being watched. As we said before the privacy of the garden was the number one priority when we bought this house and it remains so.

15 Park boulevard
Holland on sea
