Hi Zoe,

I hope you are good.

Our new neighbours have agreed that we should remove the three leylandii that are growing next to our house at Halsham. You can see from the photographs that they are impacting on our roof and we are also concerned about the potential root damage to the foundations on our property. The previous owner had left them grow out of control which was disappointing. We would like to remove them asap but will need to check to make sure nothing is nesting in them. I have attached a copy of the site plan at 1:200 to show their location.

Do we need to submit an application and if so what information will you need?

Best regards
Gary
