Subject: W/20/1552 - RETROSPECTIVE APPLICATION FOR INSTALLATION OF COLLECTION POINT FACILITIES
Attachments: Solution for Gen 2.5 amazon specifications with CAD drawings only..doc
Importance: High

I refer to the above application number, and the extension granted to it as agreed with Helena Obremski.

I also refer to Helena's letter of 05/11/2020 requesting four sets of additional information.

This e-mail serves to address:

- the third bullet point in that letter (scale plans of the installed lockers).
- With regards to the fourth bullet point it was pointed out that the drawings provided related to a previous application for signage, and do not relate to the current application. Your suggestion is that these are removed from the file – and I (belatedly) confirm that this is acceptable.

Helena – your first and second bullet points are in the process of being addressed and will follow under separate cover.

I will also be updating the application on the Planning Portal.

Thank You
Regards

Hello Clive

It was pleasure speaking to you.

Please find attached the drawings as discussed.

Hope it helps, please let me know if you need anything else.

Kind Regards
Ankur

Ankur,

You have recently provided a technical guide for the Amazon lockers at East Lane.

This is vital for the purposes of a retrospective planning application.

HOWEVER:

Could you please take a look at Ian Hunter's opening line in his e-mail below.

Is there any design or technical difference between the yellow and blue lockers? Is the roof overhang specific to one type/colour? Which colour/type of unit has actually been installed at East Lane?

Your urgent clarification is requested.

Please ensure that you REPLY ALL to this note – with thanks.

Regards
Clive

Subject: RE: CONTACT AT AMAZON

Robert, Clive,

Further to the email below, the information provided seems to illustrate different lockers to those installed? (the colour and roof overhang for example).

It is also likely the LPA will require scaled plans and elevations and as such would suggest the provided information may not satisfy the Council.

Are we able to use the information and submit the attachment as part of the planning application?

Kind Regards

Ian

Hello Clive

Apologies for the late response.

I am attaching our technical guide needed for installations which I assume will suffice the requirement.

I have also copied my colleague Chiney who takes care of the installation process.

Kind Regards
Ankur

Ankur,

Sorry to chase but I could really do with your urgent assistance on this matter.

We don't want to lose the benefit of the Amazon facility by way of a planning refusal/threat to remove.

Thank You
Regards
Clive

Ankur,

I don't have your mobile number. Could I please ask you to call me as soon as possible on 07841-866530.

I need some urgent information regarding Amazon lockers for a planning challenge to overcome in Nottingham!

Ideally, a set of technical/design drawings showing height/width/depth, required connections, downlighting, power draw.....etc

My number is 07841-866530.

Thank You
Regards

Subject: CONTACT AT AMAZON

Paul,

I am now in dialogue with Ian Hunter at Plande, the planning consultants who are working for Photo-me on the East Lane retrospective planning application.

As agreed with Robert Mortimer at Photo-me, Plande's application will also cover the Amazon lockers.

As a general rule, Plande try and work up a generic response for these types of situations to avoid various requests from the Council(s) for more technical data, measurements, electrics, illumination, visuals etc. In this way they can assist the Planners, hopefully streamline the consultation and secure a quicker decision.

We will need to support Plande's application with technical specs etc, provided by Amazon – and we need to move on this quickly, mindful of the 14th October deadline for submission of East Lane's retro application.

So.....if you have a contact in Amazon.....please confirm as soon as possible.

Thank You.

Kind Regards
Clive Wood
