

*I am writing regarding my application for the Lawful Development Certificate 3Cb License which I have applied for. I need to obtain this license to assist with my application to register with Ofsted as a childcare provider with the aim of opening a Residential Children's Home for up to 3 children, looked after by a Local Authority. I have lived within the London Borough of Bromley for many years and have worked with Bromley Social Services as a Foster Carer for 15 years. I have supported many vulnerable children and young people through difficult periods in their life. It has been highlighted to me during my work experience the shortage of Residential placements available locally and have seen the impact this can have on young people. I thoroughly enjoy my work and feel excited for the prospect of making my dream become a reality, I am sure my services will be needed and have a team of highly experienced individuals to work alongside me.*

*Kind Regards*

*Kealy Mckenzie*
