Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to this application mainly due to the loss of my right to light. I have a 5ft window in my kitchen which has been there for as long as I have lived there, six years, and for many years before that. I replaced the window four years ago because the lock was broken and the window wouldn't close properly. My downstairs living area is a through space from front to back, so losing the window, or having the window built across, in the kitchen would reduce my right to light by quite some way.

I also do not give my permission for any part of my property to be used to build this house.

If you would like to discuss the reason I didn't object to the planning application in March 2018, please don't hesitate to contact me.
