On Behalf Of: Tree Officer - LDC

Comments

Dear Karen,

Thank you for consulting us regarding this current submission. After an initial desktop review, the following comments are made.

The site is not within any designated conservation area and currently there are no TPO's, and it does not appear that there are any large trees affected given that this is largely a retrospective application.

As such there are no arboricultural grounds for any objection to this proposal in its current form.

Sincerely,

Ian McDermott,
Development Team Support, Arboriculture.
