Dear sir / madame..... Condition Discharge DC / 078658 FAO Rachel Bottomley

I attach details for our Discharge of Conditions Application for the above Approval.

On several occasions we have made the LA aware that the existing structure ( to be demolished ) is in a poor state. My client wants to remove this at the earliest opportunity. I trust that doing this would be deemed satisfactory & would effect the implementation of the Approval.

We particularly draw your attention to our response to condition 4 which offers a solution to the provision of authentic side hung doors. We understand that the Covid situation is delaying the administrative process but would ask that you let us know if you are in agreement with this at your earliest convenience.

Thanking you in anticipation

Regards
