Hello Mr Robson

Thank you for your reply.

I'm no specialist but I think it's pretty obvious that if we remove / try and repair the fence the whole branch is going to collapse. The wood of the branch is brittle and will snap which would suggest that that part at least is dead. There is nothing green growing on the branches above the fence. If we get somebody in to advise us are they allowed to do anything? Do the council have approved contractors who could help us who would be allowed to do any necessary work?

I've actually taken a video but the file is a bit big to send on e-mail. Don't suppose you have a whatsapp number I could send it to do you?

You are more than welcome to come and have a look –

Kind Regards

Janet Pearson

Good Morning Mrs Pearson

Thank you for your application.

Following on from my previous email dated 09.06.2021, please could you clarify whether the tree in question is dead and/or at imminent risk of failure as this is unclear from the photograph provided.

Furthermore, on the application form, you state that permission is being sought to lop some branches. As the tree is in a Conservation Area, please could you confirm whether you wish to

reduce, lift, or thin the crown of the tree. If you wish to reduce and/or lift the crown, please could you provide an approximate measurement in feet or metres.

If you wish to thin the crown, please could you provide the amount you wish to thin the crown by as a percentage.

Please could you provide the above information by Wednesday 30 June 2021 as your current application will be automatically returned on this date and a new application will need to be submitted at a later date with all the required information.

Kind regards

**Oliver Robson**
