## **01.00 THE CURRENT PARKING PROVISION**

The existing double garage in theory provide two parking spaces. Realistically however by modern day standards it provides one parking space.

The front forecourt provides an additional 7no. parking spaces.  
Total 8no. vehicles.

## **02.00 THE PROPOSAL**

The proposal replaces the so called double garage with a single garage and retains the ability for an additional 7no. cars to park on the forecourt. Again assuming that practically the existing garage can only house one vehicle then there is no change to the parking provision. Total 8no. vehicles.
