Thank you for your email, which I have been asked to look into. It is my view that a shipping container used as described would be likely considered a permanent structure; although it can literally be moved, given its size and the proposed use it is not likely that it would be moved on any regular basis.

I've had a look through the permitted development rights available to schools, these can be found in the Town and Country Planning (General Permitted Development) Act 2015 (as amended), specifically Schedule II, Part Seven, Class M. Please find attached a Word document where I've outlined what development can take place without the need for a planning application. I've crossed through the sections that I don't consider relevant to what you've described.

I think siting the shipping container for use as cycle storage may be acceptable in general, but that it potentially fails criterion (ba) and does fail criterion (c) if, as you mention in your email, it would be placed on the school field. This simply means that the development would require planning permission if it's placed anywhere on "any land used as a playing field"

M.1 Development is not permitted by Class M—

(ba) in the case of a school, where any land adjacent to the site is used for a purpose within Part C of the Schedule to the Use Classes Order (residential purposes), if any part of the proposed development is within 5 metres of the boundary of the curtilage of that residential land;

(c) if, as a result of the development, any land used as a playing field at any time in the 5 years before the development commenced and remaining in this use could no longer be so used;

I hope that's all clear, and if the school cannot relocate the container to overcome this issue then it would be necessary for them to apply for Full Planning permission. Please feel free to contact me if any clarification is required.

24. Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

Yes No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

If yes, please provide details of their name, role, and how they are related:
