

221 Whitegate Drive
Blackpool
FY3 9HW

21/06/21

Access Statement

221 Whitegate Drive is based in close proximity to Stanley Park, Whitegate Drive Health Centre and many local amenities. Due to this, the footpath is generally busy.

The current design of the wall presents a serious safety issue as vehicles exiting the property and pedestrians are unable to see each other until the vehicle has driven out onto the pavement. The sight line is very short and due to this, an application has been made to modify the wall by adding a curved wall feature.

In addition to this, an attempted theft was recently logged with the police in which men gained access to the property via the front, which the resident witnessed. The wrought iron gate and fencing aims to firmly secure the property from future thefts and provide both privacy and security to the resident and their pet.

A handwritten signature in black ink, appearing to read 'John Cowan', with a stylized, cursive script.
