

SOHO FARMHOUSE, GREAT TEW, OXFORDSHIRE TRANSPORT STATEMENT – GYM EXTENSION

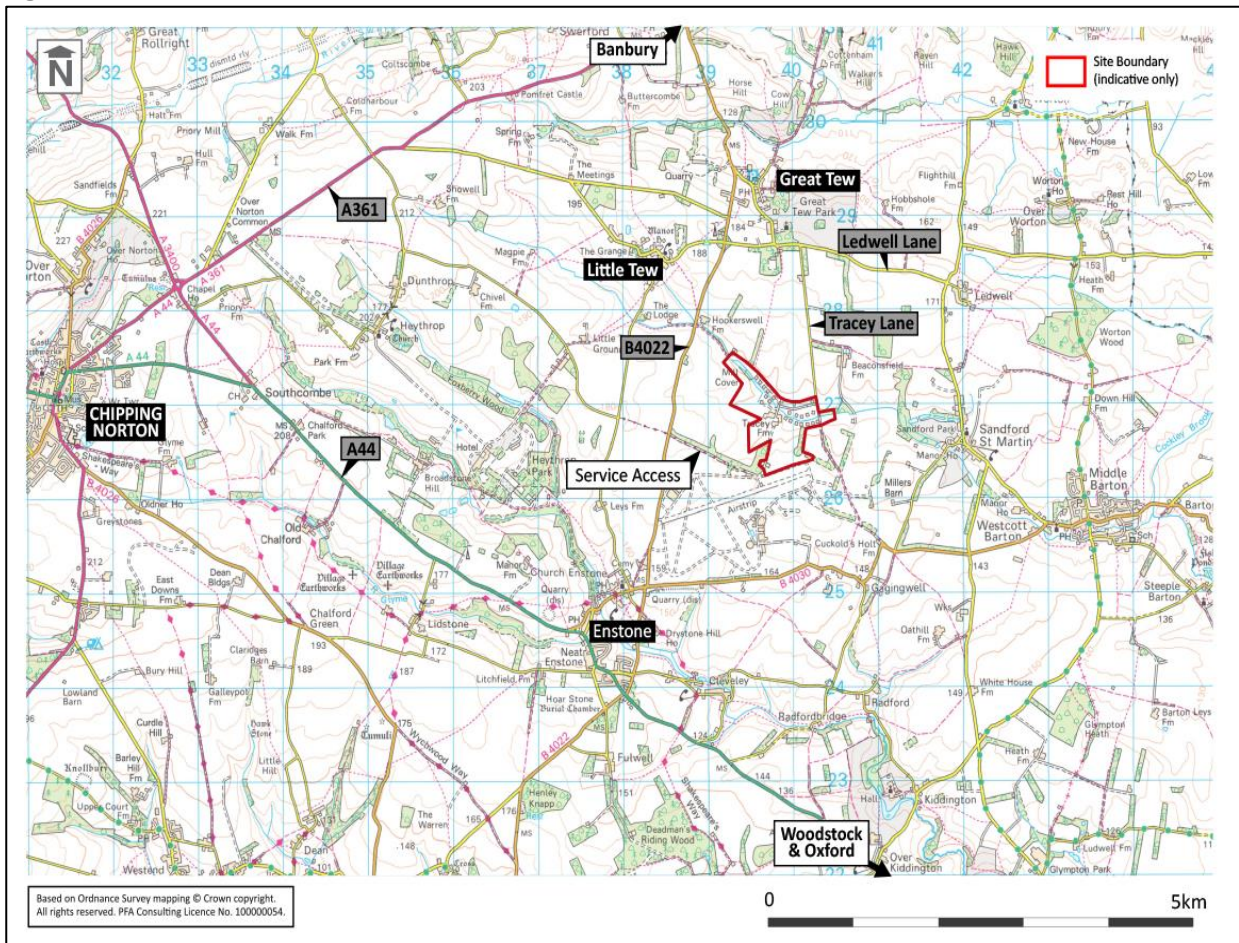

Introduction

1. This Transport Statement has been prepared by PFA Consulting in support of a planning application for an extension to the gym at Soho Farmhouse to provide extra flexible studio space in order to meet unmet demand from existing membership, and to address the ongoing health and safety measures still in place as a result of Covid. A Site Plan showing the proposed gym extension is provided at **Appendix A**. Further details are given in the Planning Statement and the drawings which accompany the planning application.

Background

2. Soho Farmhouse is located between Great Tew and Enstone, approximately 8km east of the town of Chipping Norton, 16km south of Banbury, and 25km north west of Oxford. The site location is shown on **Figure 1**.

Figure 1: Soho Farmhouse Location

3. Planning permission (reference 13/0666/P/FP) for change of use of land and buildings at Tracey Farm, Great Tew to hotel and leisure was granted in December 2013. Soho Farmhouse first opened to guests in the summer of 2015. An updated Travel Plan has been prepared to encourage sustainable travel by members, guests and staff, and was approved by Oxfordshire County Council in October 2019.

4. The entrance for members and guests is from the north via Ledwell Lane and Tracey Lane. The main car park is located close to this entrance, and the remainder of the site is car free. The entrance for staff and deliveries (except those to the energy cabin) is via the Green Lane service access off the B4022 to the west.
5. Soho Farmhouse is a hotel and members club and originally had 31 cabin buildings, a four-bedroom cottage, and a seven-bedroom farmhouse, plus two further guest rooms in a small converted outbuilding adjacent to Tracey Farmhouse. Following the grant of planning permission in December 2017, the amount of accommodation has been expanded by the addition of 50 new guest rooms, comprising 10 garden cottages which form part of a walled garden development, and ten pods each containing 4 new guest rooms ('Piglets') in the form of a pig arc style building.
6. Planning permission was granted in March 2021 under application reference 20/03562/FUL for fifteen one-bedroom Farmhouse Huts on land to the immediate west of the main Soho Farmhouse (in place of approved fifteen bell tents at Farm Camp) with associated landscaping and infrastructure. A further application, reference 20/01367/FUL, for five guest cabins (2 x two bedroom and 3 x single bedroom) located to the east of the main courtyard was also approved in August 2020; however, Soho House hope to be able to substitute these five approved cabins with five more single bedroom Farmhouse Huts proposed under planning application reference 21/01764/FUL; which if approved are to be located within the Farmhouse Huts development area.
7. Soho Farmhouse is car free in terms of guest vehicles. All guest cars are parked in the main car park, and guests and their luggage are transferred to the accommodation by the Soho Farmhouse electric vehicles via the new northern entrance. Guests also have the option to walk or cycle from reception to their accommodation.
8. The proposed Soho Farmhouse Landscape Masterplan is reproduced at **Appendix B**.

Recorded Traffic Flows

9. To establish traffic volumes on the roads providing access to Soho Farmhouse, automatic traffic counts (ATCs) were undertaken on Tracey Lane and on the Green Lane service access from Friday 28 June to Thursday 4 July 2019, when all of the guest accommodation at Soho Farmhouse was fully booked.
10. Besides Soho Farmhouse, Tracey Lane provides access to a number of properties including Park Farm Barns, Beggars Lodge, Nos 1 & 2 Beaconsfield Cottage, and Beaconsfield Farm. As well as acting as the staff and delivery access to Soho Farmhouse, the Green Lane service entrance off the B4022 provides access to a number of commercial properties at Enstone Airfield. Traffic to / from these other properties is included in the ATCs.
11. It should be noted that the ATCs do not include traffic associated with the proposed Mullin Automotive Museum at Enstone Airfield which received outline planning consent in May 2020 (reference 18/03319/OUT). The planning permission and S106 Agreement for the automotive museum include improvements to Green Lane, and to public rights of way in the vicinity of Green Lane, to accommodate additional traffic generated by the museum proposals.
12. The ATC results in terms of total two-way traffic volumes are summarised in **Table 1** for both Tracey Lane and for the Green Lane service access from the B4022. The daily peak hour for total traffic movements on Tracey Lane occurs from 12:00 – 13:00 on weekdays and Saturday, and 11:00 – 12:00 on Sunday. The peak hours for the service access are generally 09:00 – 10:00 on weekdays and at weekends. A summary of the ATC data is provided in **Appendix C**.

Table 1: Existing Traffic on Tracey Lane and Green Lane Service Access, June - July 2019.

		Total Two Way Movements					
		Average weekday		Saturday 29.06.19		Sunday 30.06.19	
		All Vehs	HGV	All Vehs	HGV	All Vehs	HGV

Development Proposals

- The development proposals comprise a new building connecting with the existing gym providing flexible studio space for classes totalling 134m², together with a storage / plant room of 76m², as shown in **Figure 2** below.

Figure 2: Gym Extension Proposal

- As the gym extension is to cater for the existing membership and to address health and safety issues associated with the ongoing Covid pandemic it is not expected to result in any increase in guest traffic.
- The extended gym will enable additional classes or treatments to be offered to existing guests at Soho Farmhouse. It is envisaged that there will be a number of additional staff employed to provide these services; most likely specialists, such as Yoga or Pilates instructors, who would regularly come to the site to run specific classes. It is not anticipated that any more than an additional four specialist staff would come to the site on a typical day as a result of the extended gym proposals. This would result in a further four vehicle movements each way per day, all of which would use the Green Lane service access from the B4022. This could be reduced if staff car share or use the staff minibus service, as set out in the approved Travel Plan. These additional vehicle movements are not considered significant in the context of the recorded traffic flows on Green Lane.
- In conclusion, there will be no significant traffic impact on Tracey Lane or the Green Lane service access, and correspondingly no significant effect on the local roads approaching Soho Farmhouse, as a result of the development proposals.

Travel Plan

17. As noted in paragraph 3, the updated Travel Plan for Soho Farmhouse was approved in October 2019.
18. The objectives for the approved updated Travel Plan are:
 - To reduce single occupancy car travel to and from the development by staff
 - To direct member and guest traffic to routes away from minor roads through local villages

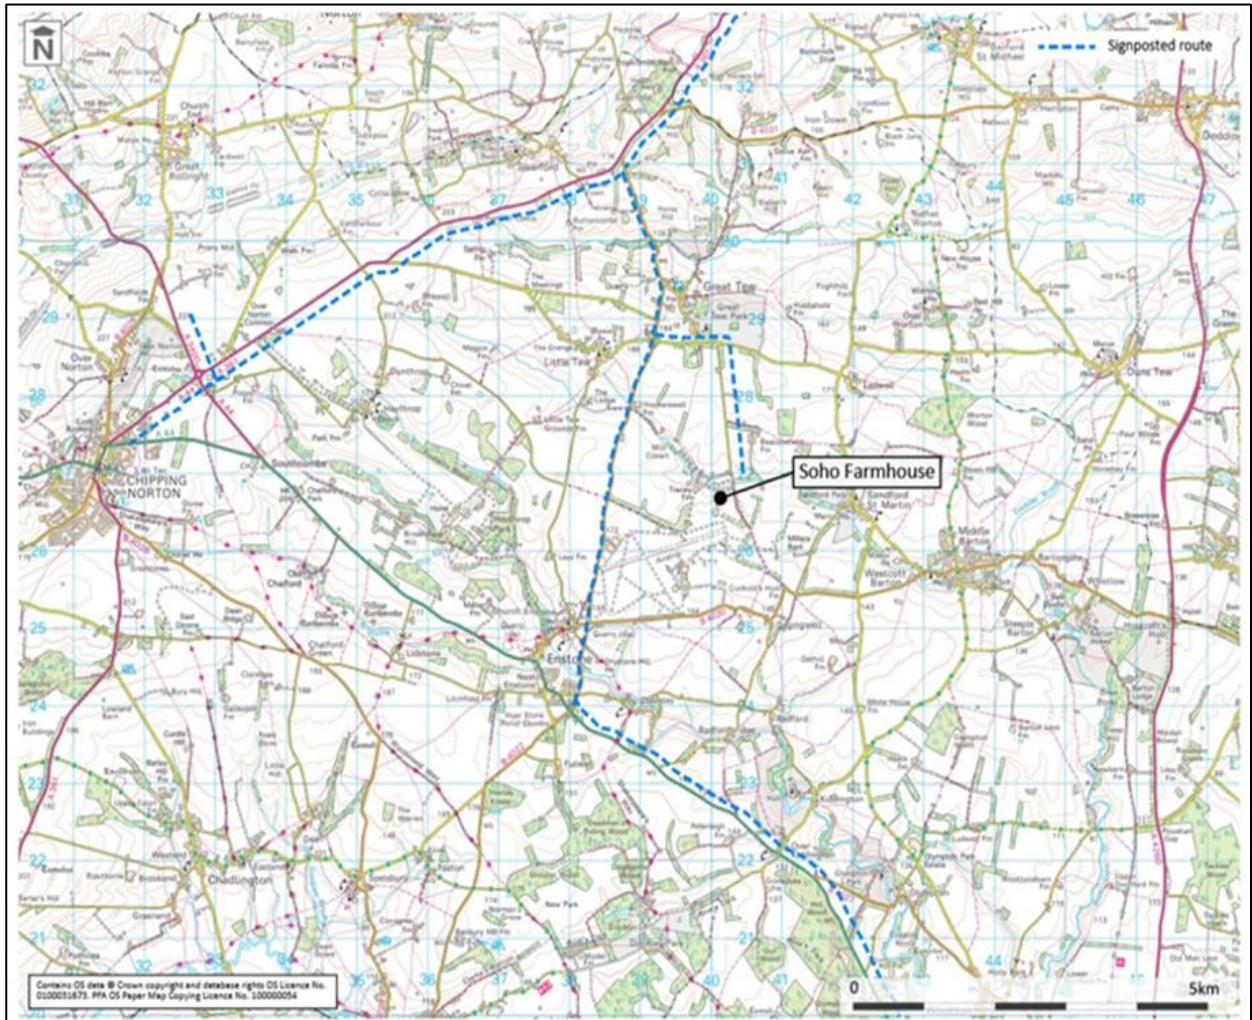

Staff Travel

19. A staff travel survey in 2016 found that some 70% of employees travelled to work by single occupancy car. The staff travel survey for the updated Travel Plan in 2019 recorded that only around 61% of staff journeys are now single occupancy car trips. The staff travel target of 60% single occupancy car trips to work in five years from 2016 was therefore virtually achieved within three years.

Member and Guest Travel

20. For member and guest travel, a system of road signage has been introduced to direct traffic to Soho Farmhouse via the A44, A361 and B4022, away from sensitive locations, including local villages. The signed routes are as shown in **Figure 3**.

Figure 3: Signed Routes for Guests to Soho Farmhouse

21. Surveys of traffic flows on Ledwell Lane either side of the junction with Tracey Lane were undertaken in June / July 2019. The results in terms of total two-way traffic volumes are summarised in **Table 2**. A summary of the ATC data is provided in **Appendix D**.

Table 2: Existing Traffic on Ledwell Lane East and West of Tracey Lane, June - July 2019.

		Total Two Way Movements		
		Average weekday	Saturday 29.06.19	Sunday 30.06.19
Ledwell Lane (East of Tracey Lane)	Peak Hour	126	105	102
	Daily	1716	1142	920
Ledwell Lane (West of Tracey Lane)	Peak Hour	212	211	229
	Daily	2879	2059	2119
Difference	Peak Hour	-94	-106	-117
	Daily	-1163	-917	-1199

Source: Axiom Traffic Ltd 28/06/19-04/07/19

22. Traffic flows on Ledwell Lane east of Tracey Lane in the direction of local villages remain well below traffic flows west of Tracey Lane, demonstrating that the signing scheme has achieved its objective.
23. The Travel Plan measures have therefore been successful in meeting the objectives with regard to both staff, and member and guest travel.

Conclusion

24. This Transport Statement has been prepared by PFA Consulting in support of a planning application for a gym extension at Soho Farmhouse. The development proposals comprise extra flexible studio space to meet the demands of the existing membership, and to address the ongoing health and safety measures still in place as a result of Covid.
25. It is not anticipated that the development proposals will result in any increase in guest traffic using Tracey Lane given that it is to cater for the existing membership; it will however result in a small increase in staff traffic, with potentially an additional four vehicle movements to the site each way per day, which would be expected to use the Green Lane service access from the B4022. This level of traffic is not considered material and will have no significant effect on the local roads approaching Soho Farmhouse.
26. The updated Travel Plan for Soho Farmhouse was approved by Oxfordshire County Council in October 2019. The Travel Plan has achieved its objectives of reducing staff travel by single occupancy car, and of directing member and guest travel away from minor routes through local villages.
27. The National Planning Policy Framework (NPPF), February 2019, states that in considering development proposals it should be ensured that appropriate opportunities to promote sustainable transport are taken up, safe and suitable access can be achieved for all users, and that any significant impacts on the transport network can be cost effectively mitigated (paragraph 108). Development should only be prevented or refused on highways grounds if there would be an unacceptable impact on highway safety or the residual cumulative impacts on the road network would be severe (paragraph 109).
28. The gym extension proposals will have no significant impact on the local road network. Measures are already in place to encourage the use of sustainable modes of travel. The proposal therefore complies with the guidance in the NPPF, and there is no reason in transport terms why planning permission should not be granted.
