

Resubmission of application: 21/0140
Erection of a single storey rear extension to existing detached garage.
23 STOCKYDALE ROAD, BLACKPOOL, FY4 5HP

Supporting Statement

The application is a resubmission of the approved application. The applicant had been advised that the application did not need to show the glazed doors to the end elevation, the detail of which had not been finalized at the time.

Subsequent to a visit by Mr Bamber, arising from a third party query on the extension's size, it was concluded that the extension was dimensionally correct but that the glazed doors were not included in the approval.

The case officer was asked to advise on the appropriate course and action and advised that a resubmission was required.

A revised drawing of the proposal is included in the application, together with an amended form.

A photograph of the extension at 30th June is below, confirming the content of the drawing.
