## 4. What Are You Applying For?

Based on the type of work proposed and the location and protected status of the trees involved, there are various details and supporting information that will need to be supplied in order for the Local Planning Authority to determine the application.

Are you seeking consent for works to tree(s) subject to a Tree Preservation Order?  Yes  No

Are you wishing to carry out works to tree(s) in a conservation area?  Yes  No

### Documents and plans (for any tree)

A sketch plan clearly showing the position of trees listed in the question 'Identification of Tree(s) and Description of Works' MUST be provided when applying for works to trees covered by a Tree Preservation Order. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes).

It would also be helpful if you provided details of any advice given on site by an LPA officer.

Are you providing additional information in support of your application (e.g. an additional schedule of work for question 'Identification of Tree(s) and Description of Works')?  Yes  No

If Yes, please provide the reference numbers of plans, documents, professional reports, photographs etc in support of your application

## 5. Identification of Tree(s) and Description of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out.

You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work.

Where trees are protected by a Tree Preservation Order, please number them as shown in the First Schedule to the Tree Preservation Order where this is available. You should use the same numbering on your sketch plan (see help for sketch plan requirements).

Please provide the following information:

- Tree species
- The number used on the sketch plan); and
- A description of the proposed works.

Where trees are protected by a Tree Preservation Order you must also provide:

- Reasons for the work; and where trees are being felled
- Proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

e.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with one standard ash in same position.

T7 - Golden Lawson Cypress - Fell. This tree is overly large in the setting of the garden. It had damage to lower branches during heavy snowfall and several limbs had to be removed. The tree now looks lopsided and unsightly.  
T9 - Plum. Fell. Has split stem, one of which is dead. There is fungus on the other stem.  
T15 - Apple. Fell. This tree is struggling under the canopy of the large walnut tree (T14). It is leaning badly (looking for light) and struggling for nutrients and water. The neighbouring apple tree T16 (as shown on plan) fell during high winds last year and had to be removed.  
T13 - Apple. Fell. Has fungus growing on trunk and is not in good health.  
T17 - Lilac. Fell. During bad weather the stem split in half and one part is now leaning on the neighbouring hedge. It does not look as if it will recover this damage.  
T 23, 24, 25, 26 - plum. Fell. This little crop of fruit trees is very old and all trees have decay in the trunks. They are not in good health.  
We would like to remove all these old, decayed trees and introduce new, healthy fruit trees away from the canopy and roots of the large walnut tree.  
We have attached the tree report by Mr Unwin, and you will see that he has advised us that they all need to be removed.

## 6. Tree Ownership

Is the applicant the owner of the tree(s)?

Yes  No

## 7. Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

Yes  No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

## 8. Trees - Declaration

I/we hereby apply for planning permission/consent as described in this form and the accompanying plans/drawings and additional information. I/we confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine opinions of the person(s) giving them.
