Details of the pre-application advice received

The principle of a car barn sited to the front of the property is considered to be capable of receiving officer's support subject to detailed consideration with regard to its size, scale and design relative to the proportions of the existing dwellinghouse and complying with the relevant planning policies as detailed below.
There are fundamental concerns relating to the proposal to introduce a further sizeable structure and associated access infrastructure to the rear of the dwelling. It is considered this may result in an intensification of the built form and possible overdevelopment of the site which in turn would fail to respect and enhance the verdant residential character and appearance of the area. This element of the proposal is unlikely to receive officer support.

11. Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

☐ Yes ☒ No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
