

2.13.2  
 there are two fire hydrants within the settlement of Bogton, one is approx 140m from site and the second is approx 180m from the site. fire appliances from Turriff & Aberchirder are within 5miles of the application site and would be onsite within 10-15 minutes of the alarm being raised and would each contain approx 3600 litres of water this combination would more than meet the requirements under regulation 2.13 Fire & Rescue Service Water Supply as outlined in the current building regulations.

# LOCATION PLAN 1:2500
