Hedging

Native Hedge Mix.

| <u>% Mix</u> | <u>Species</u> | <u>Min Height</u> |
|--------------|---------------------------|-------------------|
| 40 | <i>Crataegus monogyna</i> | 60cm |
| 40 | <i>Prunus spinosa</i> | 60cm |
| 10 | <i>Rosa arvensis</i> | 45cm |
| 5 | <i>Ilex aquifolium</i> | 45cm |
| 5 | <i>Viburnum opulus</i> | 45cm |

Hedge to be planted as a double staggered row - 60cm between rows and at 45cm centres. Ensure a minimum of 5 plants per square metre.

Existing Hedgerow to plot boundaries

To be protected during construction on site and maintained in accordance with good horticultural practice.
