Subject: Re: Application Receipt: Form 31 Collect proposal PP-09966312v1

Dear Sam,

We would like to add/amend the application:

Yew closes to their property: reduce – 3m off the height and 1.5-2m off the spread and taking it back to the boundary.
Pine: Remove due to the fact that it is covered in ivy and bramble and is very one sided. They want to replant a pleached hornbeam hedge in its place.
We would still like to apply for removal of the bay as it will be in the way when they replant with hornbeam.
Ash: This is self sown and we would like to remove it.

Please let me know if this is sufficient.

Kind regards
Claire Arnold
