

Class A

The enlargement, improvement or other alteration of a dwelling house.

Summary

Loft conversion (Roof extension)

A loft conversion for your house is considered to be permitted development, not requiring an application for planning permission, provided certain limits and conditions are met.

1. Loft conversions are NOT permitted development for houses on designated land*.
2. To be permitted development any additional roof space created must not exceed these volume allowances:
 *40 cubic metres for terraced houses.
 *50 cubic metres for detached and semi-detached houses.

Bear in mind that any previous roof space additions must be included within this volume allowance. Although you may not have created additional space a previous owner may have done so.

3. An extension beyond the plane of the existing roof slope of the principal elevation that fronts a highway is NOT permitted development.
4. Materials to be similar in appearance to the existing house.
5. No part of the extension to be higher than the highest part of the existing roof.
6. Verandas, balconies or raised platforms are NOT permitted development.
7. Any side-facing windows must be obscure-glazed and non-opening unless the parts which can be opened are more than 1.7 metres above the floor of the room in which it is installed.
8. Roof extensions, apart from hip to gable ones, to be set back, as far as is practicable, at least 20cms from the eaves.

9. Work on a loft or a roof may affect bats. You need to consider protected species when planning work of this type. A survey may be needed, and if bats are using the building, a licence may be required.

[*Contact Natural England for more advice.](#)

*Designated land includes national parks and the Broads, Areas of Outstanding Natural Beauty, conservation areas and World Heritage Sites.

Class A

The enlargement, improvement or other alteration of a dwelling house.

IMPORTANT NOTE: The permitted development allowances described here apply to houses, not flats, maisonettes or other buildings. You should check with your Local Planning Authority whether permitted development rights apply – they may have been removed. Other consents may be required if your house is listed or in a designated area.

When planning work you should read all the advice on the Planning Portal under '**Your responsibilities – Things to consider before you start**'.

As well as other important information you will find guidance here on the permitted development regime.

WALES: This guidance relates to the planning regime for England. Policy in Wales may differ. Contact your local planning authority for further information.

BUILDING REGULATIONS: Most extensions of properties require approval under the Building Regulations. For more information [see Planning Portal guidance here](#).

Definitions of terms used in this guide:

'Original house' - The term 'original house' means the house as it was first built or as it stood on 1 July 1948 (if it was built before that date). Although you may not have built an extension to the house, a previous owner may have done so.

'Designated land' - Designated land includes national parks and the Broads, Areas of Outstanding Natural Beauty, conservation areas and World Heritage Sites.

Installation, alteration or replacement of a chimney, flue or soil and vent pipe: [Read guidance on the permitted development regime under Class G of the regime which came into force on 1 October 2008.](#)

DISCLAIMER: Users should note that this is an introductory guide and is not a definitive source of legal information. [Read the full disclaimer here.](#)
