Subject: Rose Cottage Condover - Planning Application Reference: 21/03507/FUL

Attachments: IMG_20210804_0001.pdf, THE INSTALLATION OF PHOTOVOLTAIC SOLAR PANELS AT ROSE COTTAGE CONDOVER - proposal 5-4-21.pdf

Hi Planning Validation Team,

Thank you for your E-mail pointing out that I had used the wrong colour to indicate the property boundary of Rose Cottage. I have enclosed a new location plan with a red line around Rose Cottage and its curtilage.

When I sent my original Planning Application to you, I also enclosed a second file containing a number of pictures, which included before and after photographs/photo-montage of the garage front and rear views. I believe these images would be far more useful than a formal drawing of the garage elevations with, and without solar panels. You indicated that would indeed be a useful way of presenting the information required in the Planning Application, but they were not currently on file. I am therefore re-sending this file for your consideration.

I hope these new documents/files meet your approval and I await your response in due course.

Regards,

Roger Nash
