C/A

Tree Number	Species	Age	DBH (cm)	Height (m)	Condition	Recommendation	Priority
589	Cherry spp	Young	9	0 to 5		No work required	
590	Apple	Young	5	0 to 5		No work required	
591	Sycamore	Mature	54	15 to 20	Pruning wounds within the crown. Previously pollarded	Consider repollarding	Low
592	Sycamore	Mature	63	15 to 20	Co-dominant stems at 2m. Previously pollarded with mature regeneration. Cavity opening at 4m.	Repollard in coming years. Inspect cavity	Low
593	Birch spp	Young	4	0 to 5		No work required	
594	Pissards Plum	Mature	29	0 to 5	Co-dominant stems at 0.5m. Low canopy over road	Crown lift over road	Low
595	Pissards Plum	Mature	36	0 to 5	Co-dominant stems at 0.4m. Ganoderma spp fruiting body at base - additional fruit body from previous survey - decay detected and found to be structurally compromised	Fell	Medium
596	Sycamore	Mature	58	15 to 20	Stem leaning 15 degrees. Previously pollarded with mature regeneration.	Consider repollarding in coming years	Low
597	Sycamore	Semi-Mature	20	5 to 10		No work required	
598	Holly	Mature	29	0 to 5	Multi-stemmed at base	No work required
